[Despatch Abstract.]

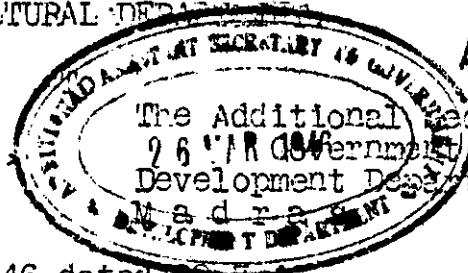

*Agria of M.F. - Pumping set -
Installation at the Agril. Research
Station Hagan - D. A.
Approved*

AGRICULTURAL DEPARTMENT

Rev. C. No 20419A

From

Rao Bahadur B. Viswanath,
C.I.E., D.Sc., F.R.I.C.
Director of Agriculture,
M a d r a s.

E.5.627/46 dated 22-3-46.

Sir,

Sub: Grow More Food Campaign--Pumping sets--Purchase--
Sanction Requested.

The Dry Farming Development Officer, Agricultural Research Station, Hagari reports that there is a small well on the station which is not being used for any irrigation purpose as it is too small for a Bellary type mhothe wheel. He states that the water of this well can be utilised for raising sweet potatoes, if it is fitted with an oil engine and a pump. It is estimated that nearly 50,000 lbs. of sweet potatoes can be produced in a year, with an equal quantity of green fodder for cattle.

2. In the circumstances stated, I request that Government may be pleased to sanction an expenditure of Rs.3,800 as detailed below for the purchase of an oil engine and a pump.

Engine	..	Rs.3,000
Pump	..	450
Pipes	..	150
Foot valve and erection		200
Total cost.		<u>3,800</u>

No. Sl. 38/46 dated 28th May, 1946.

Sir,

Sub: PUMPING SET -- Errection of Dry Farming Station,
Hagari.

Ref: Government Telephonic Message dated 3rd May, 1946.

..v..

The scheme partly financed by the Imperial Council of Agricultural Research at Hagari is intended specifically to evolve suitable cultivation practices for scarcity areas. The scheme came to close on 31st March 46 and has been extended upto 30th June 1946. Proposals have also been sent up for the continuance of the scheme for a further period of 3 years from 1st July 1946.

2. No provision has been made for the purchase of a pumping set in the scheme submitted to Government. The share of the Imperial Council of Agricultural Research in running the scheme during the period of extension is Rs. 38,500/- and the cost of the engine and pump set viz. Rs. 3,800/- is roughly 10% of it and it is too large an addition.

3. Further, as the pumping set is not intended directly to help the scheme ~~the~~ I suggest that the expenditure involved in the errection of the pumping set may kindly be borne wholly by the local Government and

Gov. memo. No. 20419 A/46-1 d 1.4.46
From the D.A. S.I. 38/46 d 17.4.46

Please see pp 1-5 of. The D.A. has proposed the erection of a pumping set at a cost of Rs. 3800 at the Agri. Research Station Hagari so that the water from the well at the Station can be utilised for raising sweet potatoes. Sanction has been accorded for the purchase of certain pumps and fittings from the Thompson Disposal Committee of Govt. of India. The D.A. has stated that one of these can be utilised for the purpose mentioned above. It is not clear whether his intention is to debit the expenditure to the Dry Farming Developmental Scheme working at Kaggal Village near Hagari which is financed partly by the I.C.A.R. & partly by the Prov. Govt. ~~The~~ The D.A. may be consulted on this point. Subject to orders a draft T.M. is submitted for approval on p 6 of.

Forwarded as T.M. dated 25.12.1946

From the D.A. No. S.I. 38/46 d 28/5/46

Please see the T.M. to D.A. and his reply on pp 6-8 of. For the reasons stated in the letter on pp 7-8 of, the D.A. has suggested that the expenditure involved in the erection of the pumping set at the Agricultural Research Station, Hagari, may be borne by this Govt. For orders whether this suggestion may be accepted. If it is proposed to accept

for H 140

3C

The D. A.'s suggestion, it seems sufficient if
 the D. A. is permitted to utilise ^{for the Agr. Research Station Hagan} ~~one~~ of the
 oil engines and pumping sets and fittings
 identified on the Thompsons Disposal for the
 Agricultural Research Station, Hagan. No
 fresh expenditure need be sanctioned ^{as expenditure} for
 the purchase of the pumps and fittings has
 already been sanctioned. Subject to orders a
 draft order is submitted for approval.
 Finance may see for acceptance.
